Part 12:
ISO base media file format

TECHNICAL CORRIGENDUM 2

Technologies de l'information — Système de codage d'images JPEG 2000 —

Partie 12: Format ISO de base pour les fichiers médias

RECTIFICATIF TECHNIQUE 2

Technical Corrigendum 2 to ISO/IEC 15444-12:2008 was prepared by Joint Technical Committee ISO/IEC JTC 1, *Information technology*, Subcommittee SC 29, *Coding of audio, picture, multimedia and hypermedia information*.

Page 12, 6.3, replace the entire subclause with the following:

The definitions of the brands that apply to the file format are given in Annex E.

Page 25, 8.5.2.1 after paragraph eight,

If the “format” field of a SampleEntry is unrecognized, neither the sample description itself, nor the associated media samples, shall be decoded.

insert the following note:

NOTE The definition of sample entries specifies boxes in a particular order, and this is usually also followed in derived specifications. For maximum compatibility, writers should construct files respecting the order both within specifications and as implied by the inheritance, whereas readers should be prepared to accept any box order.
